REASONS FOR ALLOWANCE

1. Claims 21-30 are allowed because the prior art does not show or suggest a shear bolt coupling assembly comprising all the limitations of claim 21. Brown shows many of the limitations of the claim but fails to show the flanges with opposing planar inner faces because in Brown the flanges 10 & 11 each have a recess 10c & 11c on their respective inner face. Having opposing planar inner faces, as in the instant invention, is an improvement over Brown because it allows the shear bolt to be slid out of the slots without moving the flanges apart.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wehrle shows in Figs. 7 & 8 that flanges with slots and holes 7 are recognized equivalents. Thomine shows a bolt coupling.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Binda whose telephone number is (703) 305-2869. The examiner can normally be reached on M-F 9:30 am to 7:00 pm with alternate Mondays off.
